About Us

As the Proprietor of **Eshal Rice & Eshal Food**, I manage all operations including cultivation, milling, production, and nationwide wholesale supply of rice. We cultivate premium **Kataribhog** and **Kalijira** on 4 acres of our own land (approx. **24,480 kg/year**). Additionally, we collect around **13,000 tons of paddy** from farmers annually, processed at our licensed rice mill to produce about **8,500 tons of rice** each year. A skilled **42 member team** ensures rigorous quality and safety across the value chain.

Our products are supplied across Bangladesh. We have entered the Saudi Arabian export market with shipment (**PI No: ESHAL-20250909**) valued at **USD 20,501.25**. We participate in SME Foundation Fairs and the USBCCI Business Expo 2025 (New York) to build long-term global partnerships. CSR: BDT 100,000 annual donation to orphanages and ~10 tons of rice distributed to disaster-affected communities.
